DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Berchem US 5,271,427 in view of Berchem US 4,968,004.

Berchem '427 discloses a casing, a valve seat 8, a shut off element 2 and an actuation element 20 in which the seat and shut off element are made of engineering ceramics (col. 4, lines 61-63) described as silicon dioxide (col. 2, lines 5-6) which is the chemical name of quartz glass.

Berchem '427 lacks the shut off element being a slide plate and the valve seat as two sealing discs. Berchem '004 discloses the equivalency of a ball valve with a valve seat and a slide plate with two sealing discs. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the ball valve and valve seat of Berchem '427 as a slide plate with two sealing discs as disclosed by Berchem '004 as they are shown as equivalent valving apparatus.

Response to Arguments

3. Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3751

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Frame and Fehling disclose silica in valves.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
